

Deleting Autofill addresses

When you start to type the address name which you want to NOT be there in the "To:" field

-> You will see the name drop down in a list slightly below the "To:" Field

-> Highlight this name and press the delete

This will remove it. Then create a new email and fully type out the email address that you DO want to appear in the auto fill. In the future, this email address will "autofill" every time you start to type in the name or use the new address.

If you have any problems with this feel free to contact Convergence Networks at support@cnwi.net or you can call us at 503.906.1515
